Language Friendly School 2021

Motivation for becoming a Language Friendly School

THEIR STORY

Every child has the right to flourish at school. Language is an important part of their identity and is a powerful learning tool and resource. RISE is an international school in Eindhoven, offering their students lessons in English and Dutch, following the International Primary Curriculum and the Dutch curriculum. The mother tongues of students have a role in the IPC programme.

Language Friendly School 2020

Benefits

BENEFITS OF BECOMING A LANGUAGE FRIENDLY SCHOOL

The Network Meeting was interesting to connect and share with other schools. It would be interesting, especially for our teachers, to be able to discuss classroom approaches thematically. Connecting with schools with a similar programme would be valuable

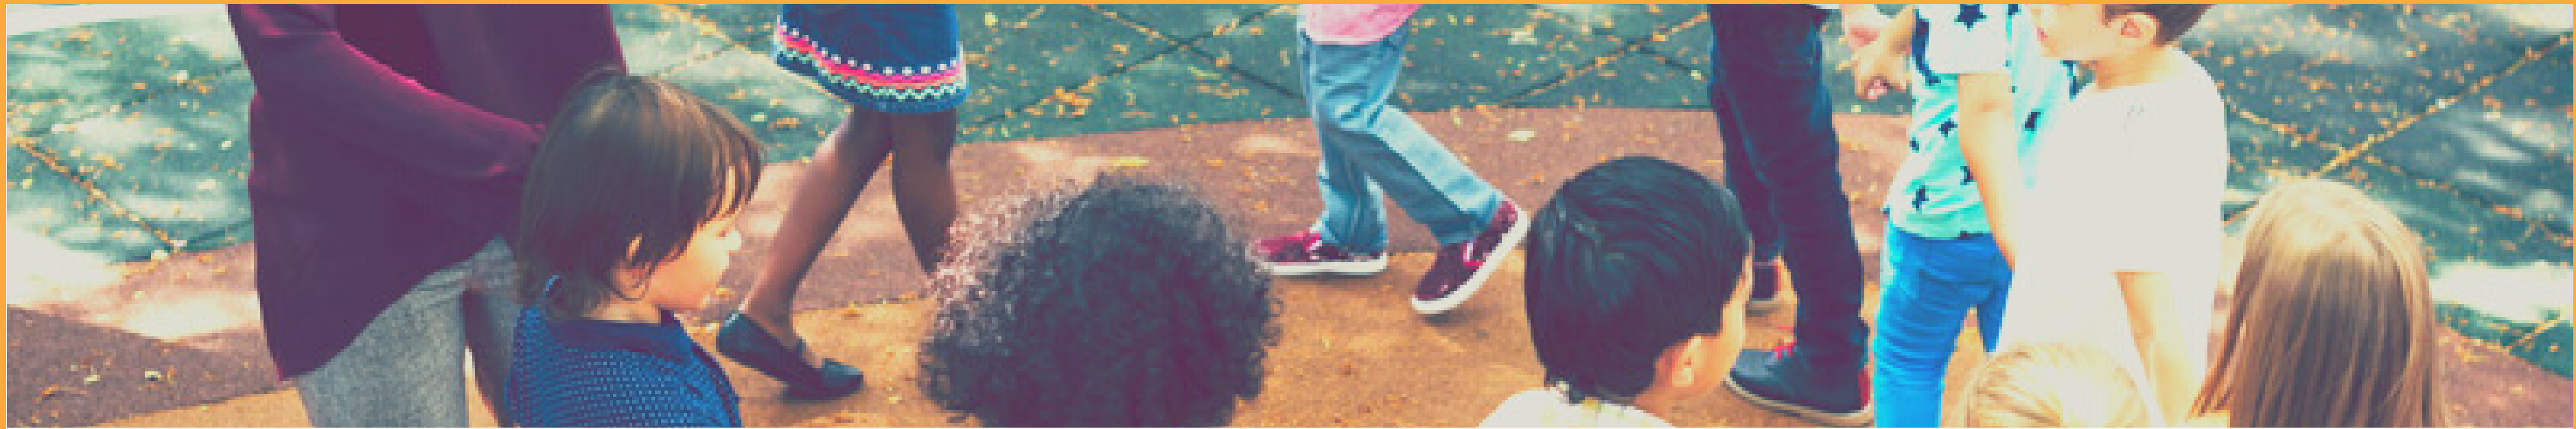

TIPS FOR SUCCESS

**INVOLVING EVERYONE IN THE TEAM TO
MAKE CHILDREN FEEL WELCOME IN
THEIR LANGUAGES IS SOMETHING THAT
IS IMPORTANT IN OUR SCHOOL**

Plans for the Future

RISE

PROFESSIONAL DEVELOPMENT FOR TEACHERS

The priority for RISE is professional development opportunities for teachers for two years. Implementing this, changing the approaches in classrooms and involving the parents in this will take time. What does the situation of languages of a child mean to their development? The team wants to learn more about content and language and how they relate to each other and where the opportunities lie to offer content. In the Language Friendly School plan they want to give room to the mother tongues, also after school. Most importantly, they want to welcome all children, regardless of the language they speak. The school is really growing.

LANGUAGES AT RISE

At school they learn English and Dutch. A large part of the population speaks different languages from the area of India (very multilingual families). Turkish, Portuguese, Spanish and many other languages. The school is now doing research into how and why (for what purpose) to document the languages of their students.
